## **Collecting On Your Eviction Judgments**

There is no reason to let your evicted tenant get away owing you money. As your attorney, not only will we strive to get your tenant evicted quickly, but in addition we will hound your tenant until the debt is completely paid.

Our collection services used the best and newest techniques in finding assets. We will continue to monitor your tenant's records until assets are located.

**There are no fees charged unless we collect  
from your tenant.**

To initiate our service, just sign the enclosed collection agreement and complete the Tenant Information Form and return it to our office
